Coaching For Life Beyond The Court!

Dear Friends,

Aces in Motion creates a safe space for local youth to learn, play, and develop into the leaders of tomorrow. With a mission to promote health, academic achievement, and character development through the game of tennis, Aces In Motion has partnered with hundreds of families over the years to do just that. In an effort to provide more opportunities for our youth, we plan to open a new Teen Resource Center at Oakview Park (formerly the Kiwanis Girl Scout Park on NW 8th Avenue), and we invite you to join us in this effort.

Life is full of opportunities and choices. Unfortunately, there are limited opportunities for many of Gainesville's teens. However, there is hope by creating a place for them to prepare for post-secondary education and a career, learn leadership skills, and receive social and emotional support. We are confident that youth can thrive if provided with opportunities, RESOURCES, structure, and choices. With our new Oakview Park Teen Resource Center, we believe we can provide all of this and more.

Aces in Motion has been steadily growing over the past eight years, both in size and impact. We have seen our first middle school student graduate from college this past year, and we look forward to many more success stories. With 56 middle and high school students currently enrolled in our After-School Program, we have outgrown our space at TB McPherson Recreation Center. Even though we also utilize the University of Florida campus, there are many logistical issues, including limited office and meeting space, inadequate equipment storage areas, and no dedicated areas for programming. As a result, there is considerable need for additional space for our high school students to support them during the crucial years before college and a career.

We are requesting your help in providing funding for this exciting opportunity. Programming at the Oakview Park Teen Resource Center will primarily be funded through grants and donations. Your support of this Teen Center will positively impact Gainesville's youth community for years to come. Your generosity will provide hope to many under-resourced families that need opportunities for their children. Will you help our community by supporting this effort and equipping our youth with the tools and experiences they need to be successful adults?

Thank you,

Addison Staples
Executive Director
Aces in Motion

Aces in Motion has outgrown the spaces available at TB McPherson and at the University of Florida campus. With our need for additional space for Out-of-School-Time programming for pre-teens and teens, the opportunity to partner with the city of Gainesville was too good of an opportunity to pass up. This new facility will offer an array of programs, activities, and events that will be delivered by our professional staff, partner organizations, volunteers, and the teens themselves. Our goal is to provide a space that supports our teens' development with experiences, resources, and mentors to help them succeed.

PROGRAMS AT THE OAKVIEW PARK TEEN RESOURCE CENTER

COLLEGE AND CAREER PREP

Preparing youth for college or post-secondary education is a key component of Aces in Motion. The Oakview Park Teen Resource Center will provide our students and their families with the assistance and resources they need to attain their goal of college, trade school, or military.

MENTAL HEALTH COUNSELING

Aces in Motion is partnering with Girls Place and Kids Count to provide a dedicated team of licensed mental health counselors who will utilize the space to provide professional mental health counseling services for our students, parents and families.

STEAM EDUCATIONAL LAB

We are excited to be able to offer experiences that expose our youth to careers of tomorrow and encourage creativity and self-expression. The STEAM Educational lab will include a music studio and a 3D Imaging & Printing area. Coding and other related classes will also be provided.

ESPORTS

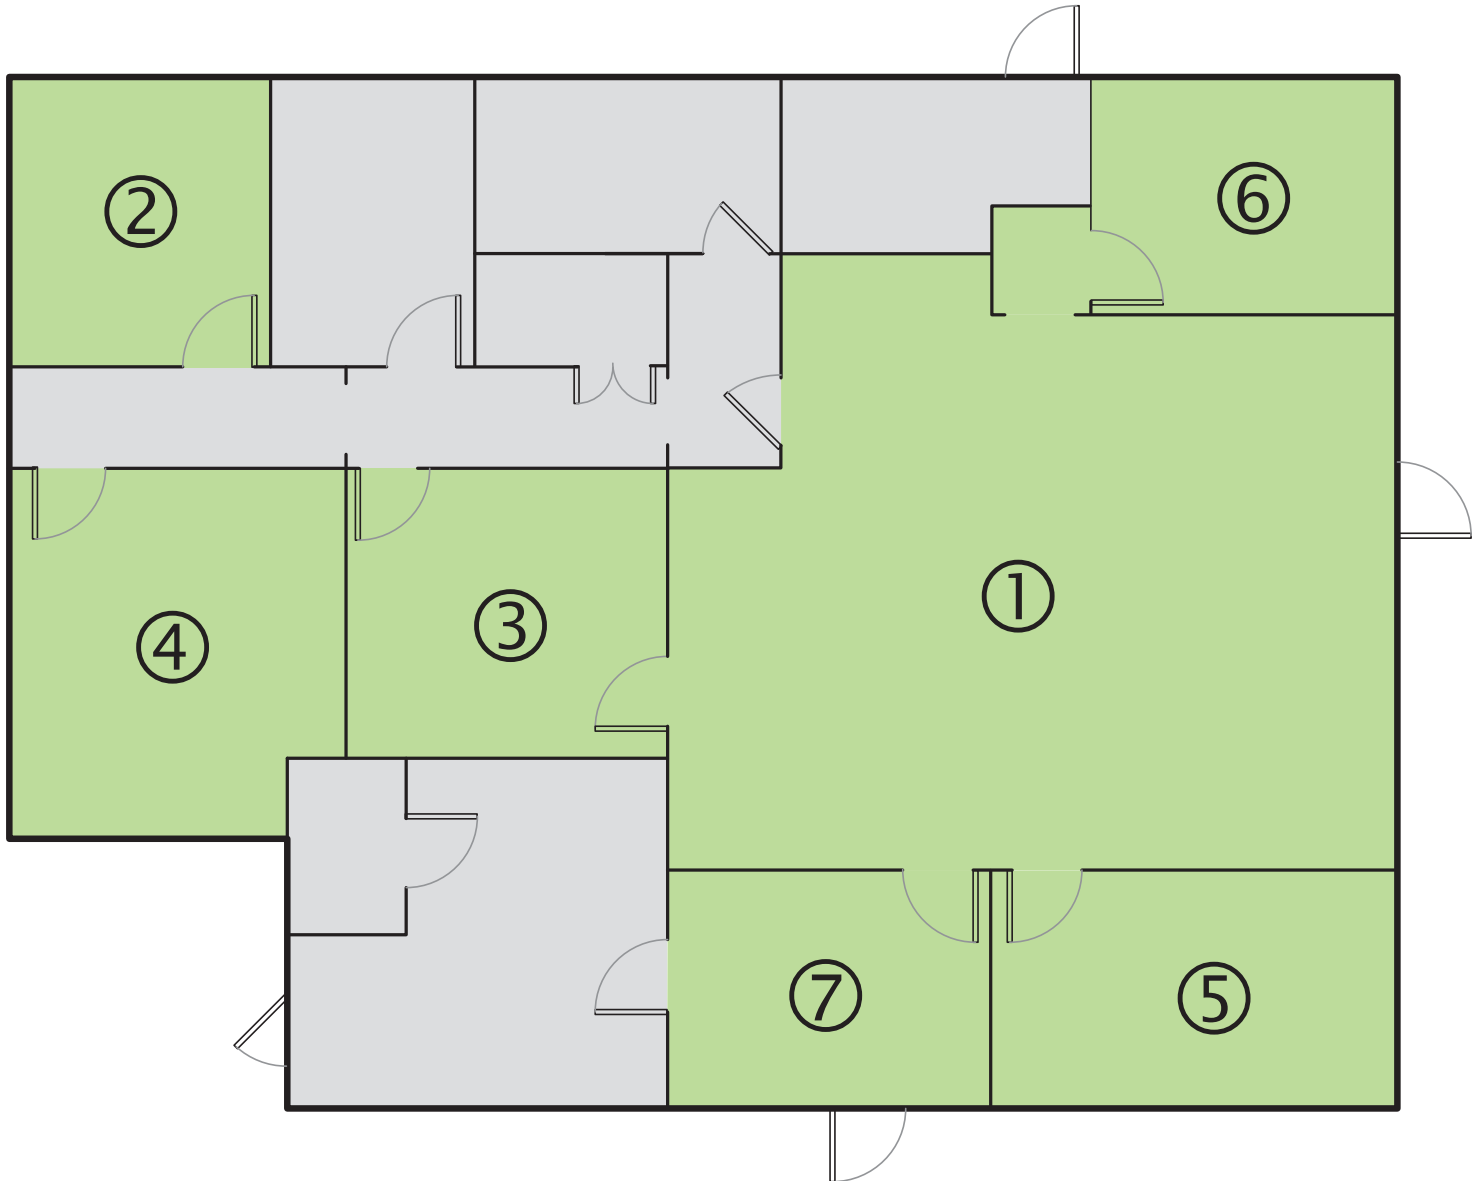

Esports is one of the fastest growing markets in sports and offers not only many career pathways, but also college scholarship opportunities. Like traditional youth sports leagues, Esport helps teens learn valuable skills that will serve them well throughout their careers and life. Among the skills developed through Esports are strategic thinking, teamwork, leadership, goal setting, and managing success and failure. AIM's Esports initiative is consistent with our sports-based, youth-development approach.

YOUTH LEADERSHIP & EMPLOYMENT

Following best-practices for youth development and teen centers, our teens will be offered opportunities to gain leadership skills and employment experience by working as support staff in the center.

SHARED OFFICE SPACE

Establishing partnerships among other youth-oriented non-profits is an important part of our strategy for working with youth in the community. Aces in Motion will offer shared spaces for our partners at the Oakview Park Teen Resource Center.
